Learn to Use: Pie Plots

Create a Pie Plot

1. In **Plot View**, click the **Pie Plot** button  on the **Toolbar**.
2. Click the **Select Field** menu and choose a field to assign.

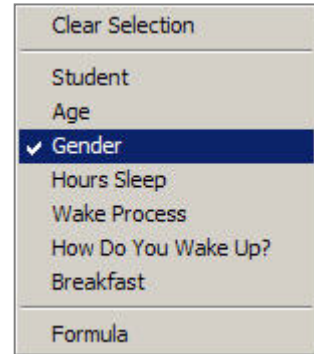

3. Record icons move into wedges proportioned to the number of records they contain.

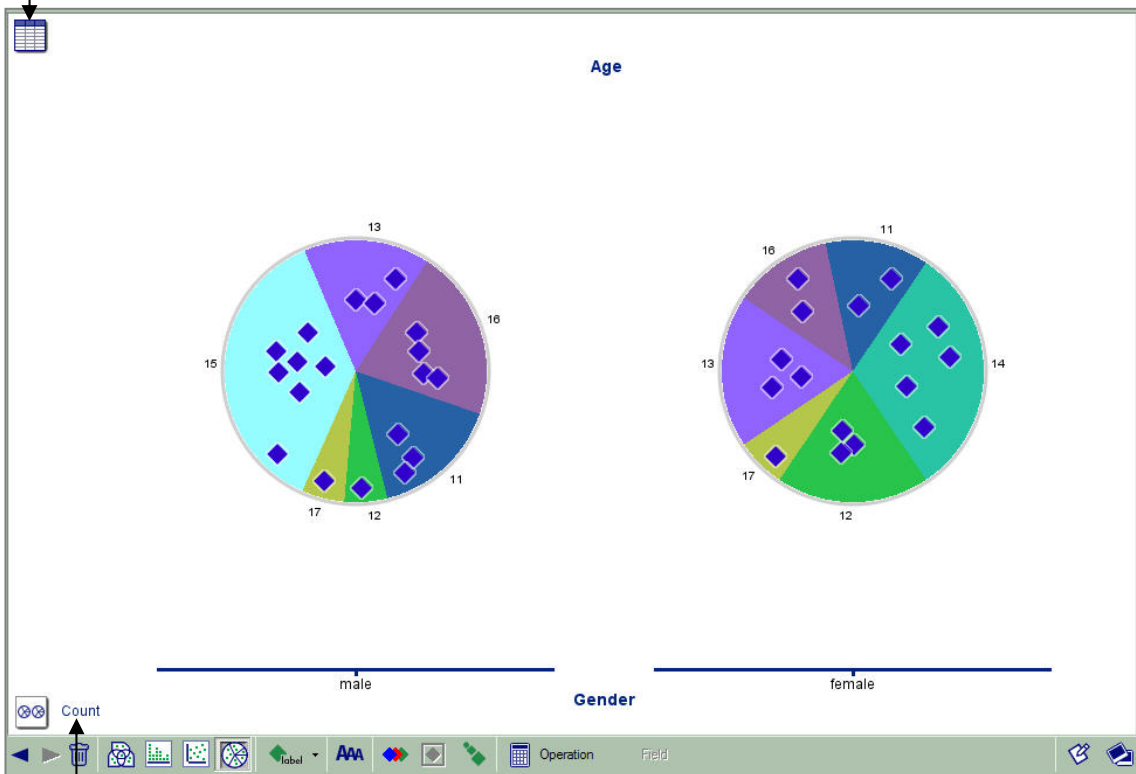

InspireData™ Learn to Use: Pie Plots

Displaying Multiple Pies in a Plot

1. Click the **Pie Plot Options** button  and choose horizontal , vertical  or grid .
2. Click the **Select Field** menu and choose a field to assign to the pies.
3. Click the **Axis Label** for X-axis (horizontal pie), Y-axis (vertical pie) or both axes (grid pie) and choose a field to assign to the axis.
4. For some numeric fields, it may be appropriate to proportion wedges according to percent of total instead of count. To do this, click the **Count** button and select **% of Total**.
