Learn to Use: Slide Shows

Create a Slide Show

1. Click the **Slide Sorter** button  on the **Toolbar** to open the **Slide Sorter**.
2. Click the **Capture Slide** button  to create a slide of the plot.

Make Changes to a Captured Slide

1. In the **Slide Sorter**, click on the slide and make changes.
2. Click the **Slide Options** button  and choose **Update Slide**.
3. Updating a captured slide will overwrite the previous settings. To keep both versions, create a new slide.

Delete a Slide

1. Click the **Slide Options** button  on the slide and choose **Delete Slide**.

Rename a Slide

1. Click the **Slide Options** button  of the slide.
2. Choose **Rename Slide** from the menu.
3. Type the new name into the text box, and click **OK**.

Reorder the Slides in a Slide Show

1. Click and drag the slide to the desired location.

Present a Slide Show

1. On the **Slide Show** menu, choose **Start Slide Show**.
2. Use the **Slide Show Controls** to move between slides.
