Learn to Use: Stack Plots

Create a Stack Plot

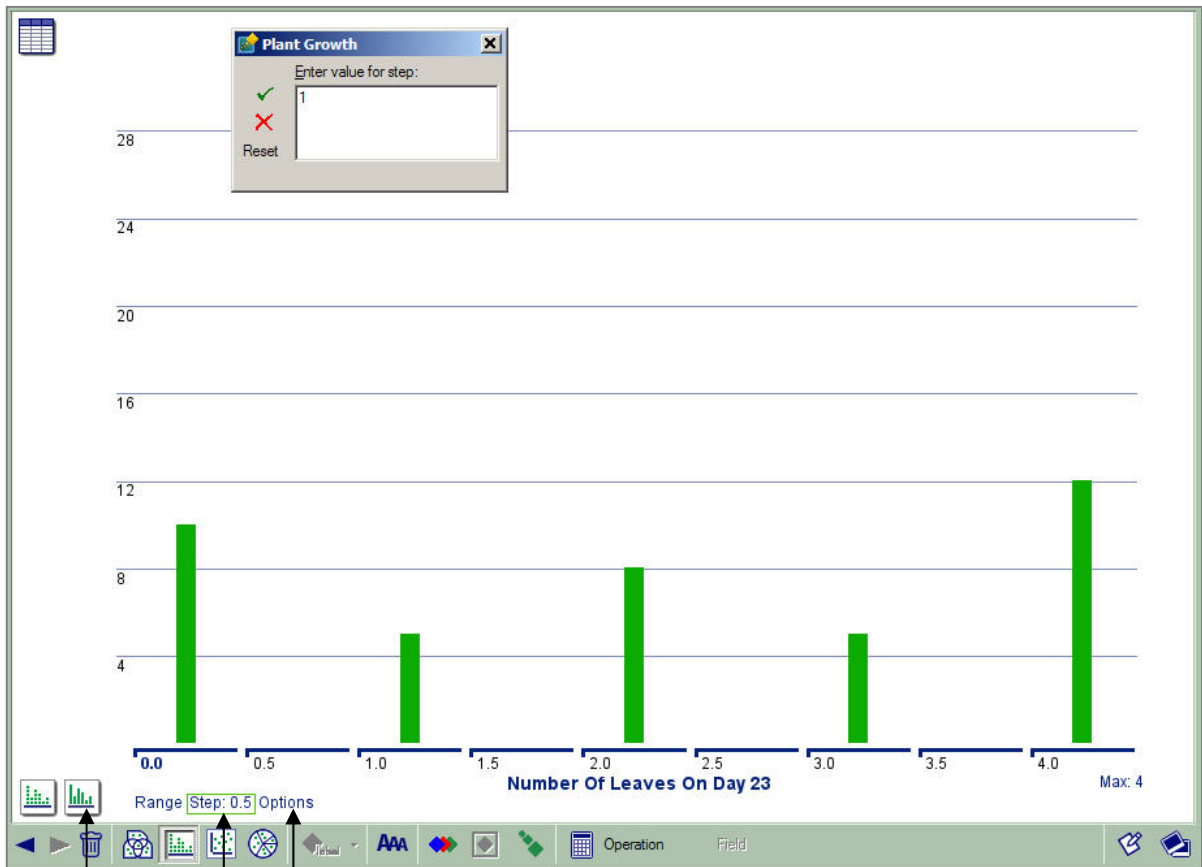

1. In Plot View, click the **Stack Plot** button  on the **Toolbar**. The icons are arranged in one tall stack.
2. Click the **Axis Label** of the X-axis and select a field name to assign to the axis.
3. Once a field is assigned to the axis, icons move into separate stacks based on their values

InspireData™ Learn to Use: Stack Plots

Create a Bar Chart from a Stack Plot

1. Click the **Switch to Bar Chart** button. Bars replace the icons.
2. To change the intervals assigned to the axis, click **Range Step**. Type the desired value into the dialogue box and click the green arrow.
